CLOSING PRICES OF CHICAGO STOCKS.

The Attorney-General of New-York has decided, under the Anti-Trust laws of this State, to find out something about the reports that illegal contract limiting the production of anthracite coal. The so-called Coal Trust is made up of the leading anthracite railroad companies, including the Delaware and Hudson, the Delaware, Lackawanna and Western, the Reading. the Jersey Central, the Lehigh Valley and the Ontario and Western. By reason of a proposed agreement to put the anthracite coal business upon a profitable basis, the so-called Coal Trust was formed, but, according to the testimony given before the Lexow committee in its rec by the companies, and no contract was entered into to restrict the output of anthracite coal. The companies doubtless reached an understanding, as shown by the decreased output in the last two years, to conduct their mining operations upon a basis somewhat different from the out-throat style previously prevailing, but their recent annual reports have shown none of the advantages supposed to accrue from illegal contracts and agreements in restraint of trade. Reduced earnings and reduced dividends have been the lot of the coal companies, and if they have been conducting their operations in restraint of trade it is not likely that they will care to continue long in the unprofitable trust business. The announcement that the presidents of the coal companies had been summoned to give evidence was followed by an attack upon the anthracite shares, but

The general course of prices was downward. although losses made were small and not accompanied by outside liquidation. Reports of delay over the Tariff bill and the reopening of the Cuban question caused considerable anxiety among many large operators, and in the absence of any support from this element, small boardroom traders controlled speculation as best suited their varying sentiment. Outside of the efforts to depress the anthracite group, the market was without especial feature. The railroad shares were off 14.8% per cent, with exceptions in the so-called Gould stocks, which were remarkably firm, Mannattan gaining I per cent, Western Union 14 per cent, and Missouri Pacific 15 per cent. Gold exports to-morrow will amount to \$2.259,000, figures very much under the estimates made script in the week. From the the estimates made early in the week. From the import statement of drygoods at this port for the week ending to-day-in value \$3.297.165, against \$5.340,371-it would seem as if the big rush to get merchandise into the country before the new Tariff bill becomes a law was about

Jersey Central made the only noteworthy re-

sponse to the movement.

over.
